Objective

I'm a final-year B.Tech student who loves building simple tools that solve real problems. I enjoy breaking down complex tech into easy-to-understand ideas, streamlining workflows, and making sure things work smoothly behind the scenes. I'm excited to join a team where I can put my coding skills and curiosity to work—especially in spaces that blend education, technology, and impact.

Technologies

Programming: Python, Java, SQL

Databases: MongoDB, Oracle SQL

Tools & Platforms: MongoDB Shell, Visual Studio, IDLE, WordPress, Firebase, Cloudinary

Other Technologies: SEO, Google Analytics, Azure Fundamentals, Figma, Canva

Soft Skills: Communication, Teamwork, Critical Thinking, Leadership
